

## **JOB ADVERT**

### Senior Civil Engineer - Milton Keynes

We are seeking a Civil Engineer to join our team in Milton Keynes. The role is hybrid, with site visits (UK wide) as and when required. In this role, you will manage complex civil engineering projects from conception through to completion, ensuring the highest standards of quality, safety, and efficiency.

Our offices in Milton Keynes are based in the Canon Harnett Court business park, ideally located close to Stony Stratford & the A5, the business park has ample parking, electric vehicle charging points, bicycle racks, an onsite café and Victorian Ponds.

Egniol Consulting is an independent multi-disciplinary engineering, environmental and project management consultancy. We provide essential support across a wide range of sectors at all stages of the built environment development that improves our communities, protects our environment, and creates value for our clients. Our purpose is not just what we do but the difference we make.

We are proud to be accredited as Gold Investors in People, reflecting our commitment to excellence and the trusted expertise of our team. At the heart of everything we do are our core values: Determined, Responsive, Accountable, Integrated, and Genuine.

We offer a competitive remuneration and benefits package, including:

- Membership of our Group Personal Pension Plan, with matched Employer's contribution of 4%.
- Payment of a relevant professional subscription.
- 25 days annual leave per year (plus Bank Holidays).
- Training and professional development plan.
- Inclusion in our Life Assurance Policy, insuring you to 4 times your annual salary.
- Income protection scheme.
- Private Healthcare
- Healthcare Cash plan
- Flexible working arrangements.
- Cycle to Work Scheme.
- Annual paid volunteering day.

## Roles and Responsibilities

- Working knowledge of design standards in accordance with British Standards, Design Manual for Roads and Bridges, Sewerage Sector Guidance, etc to successfully deliver projects for our clients.
- Implement internal QMS procedures and ensure all designs comply with the company's internal checking protocols.
- Undertake coordination with other professionals and contractors as appropriate, and to organise your time to ensure timely delivery of projects.
- Work independently on smaller projects, or as part of a team on more significant schemes.
- Commercial delivery of projects ensuring timescales and budgets are met.
- Collaborative working with other Egniol Consulting offices.
- In addition to design tasks, you may be required to supervise trial hole investigations and undertake visual inspections.
- Assist in mentoring of less experienced Engineers.
- Liaise with Clients and other members of the design team to ensure designs meet the Client brief including attendance at design team meetings / site meetings as required.
- Actively engage in business development where appropriate.
- Input into fee proposals where necessary.
- When required assist with the project management of design projects of all sizes including commercial delivery of projects, ensuring timescales and budgets are met

## Role Requirements

- Good knowledge of all relevant British Standards and Design Codes.
- Designs will be produced by hand calculation or using Design Software as appropriate to the nature and magnitude of the project and to underpin this you will be expected to have a sound grasp of Engineering Principles.
- Have a sound understanding of technical design packages including Civil 3D, InfoDrainage, etc to support the design process.
- Good IT skills including a basic understanding of AutoCAD and Word
- Full driving licence and use of a car
- Full RTW

## Qualifications

### Preferred

- Completion of Degree in relevant Engineering subject
- Minimum 5 years' experience working in similar engineering consultancy
- Working towards and close to achieving membership of relevant Professional Institution i.e. Incorporated or Chartered Member of ICE
